On-Canvas Annotations

Notes Archive

The interface displays a sequence of mobile app screens for a travel application. The first screen is a 'Sign in' page with a blue background. The subsequent screens show a 'Blogger Info' section, a 'Live Chat' interface, and a 'Sacred Grove' section. Annotations are present on the screens, including a red circle around the 'Blogger Info' section and a red line pointing to the 'Live Chat' interface. The notes archive on the right lists the current and previous notes.

ARTBOARDS

- Blogger Info
- Chat - 5
- Bloggers List
- Chat - 4
- Login
- Chat - 6

Blogger Flow - Color Match

**Next: fill in placeholders
Match individual and menu styles**

Good: keep alternating blue and teal for chat

Add: SSO auth for social media, panel should match SSO from accommodations team app

PREVIOUS NOTES

Blogger Flow Initial

Color ideas:
Dark gray on white to match neutral screens
++ Blue and teal to match chat screens
